# Teens' and the Young Adults' Hang Out

The following story was written and contributed to us by our resident teenager, (Andrew, who is 14 years old). This is a true story based on what Andrew remembered of an experience he had, when he was 10 years old.

## A Ghostly Story

It all started at the Glen Tavern Inn. My cousin and I were walking around. We both saw a small boy standing near the fireplace of the Inn.

He was wearing an old school suit with a hat, and when we looked at him again he was gone. We didn't know where he went, so we just left. Then later that day, a woman at the counter of the Inn gave us a pamphlet that described every person and haunted room there. One article was about a small boy near a fireplace (who had died of sickness), and my cousin and I both looked up at each other.
